Mission

INNOVATION EXPERIENCE

EXECUTIVE &
YOUNG PROFESSIONALS
PROGRAM

For more than 10 years, we have been **connecting leaders with innovation hubs** in the world's major technology ecosystems.

We help leaders, entrepreneurs, professionals, and students become more innovative, **generate global business opportunities**, and **learn from those who lead technological transformation** in their sectors.

-  Connecting the world with the leading global innovation ecosystems.
-  Business. Networking. Inspiration.
-  Shift Your Mindset. Change the World.

+10 years

+30 countries

+200 delegations

+5,000 participants

THEY TRUST INNOVATION EXPERIENCE

Why China?

Global economic powerhouse - the world's second-largest economy, on a strong path toward first place.

Center of applied innovation - where AI, robotics, fintech, and e-commerce are implemented at scale.

Companies changing the game - Huawei, Xiaomi, Lenovo, BYD, DJI, Tencent, among others.

Long-term vision - planning, investment, and execution with 10-, 20-, and 50-year goals.

Strategic trade openness - active pursuit of global partners, cross-border investment, and international expansion.

Gateway to Asia and the future - understanding China means understanding where the world is heading

Chinese Leaders on a Global Scale

Reason **Why**

**INNOVATION
EXPERIENCE**

EXECUTIVE &
YOUNG PROFESSIONALS
PROGRAM

Direct access to global innovation leaders

Interaction with companies such as Tencent, Alibaba, BYD, SenseTime, DeepBlue, AgiBot, and Alipay, among others, that are leading the development and implementation of AI, robotics, automation, and digital platforms at scale.

360° immersion in the innovation ecosystem

Direct contact with technology companies, innovation hubs, manufacturing centers, and research institutions, understanding how China integrates technology, business models, and execution at scale within a single ecosystem.

Practical learning with real-world applications

First-hand experience with artificial intelligence, robotics, automation, digital platforms, smart mobility, fintech, and advanced manufacturing, seeing how these technologies are applied in real business environments.

New business models and market opportunities

Understanding how Chinese companies are creating and scaling new business models, and identifying opportunities for expansion, partnerships, and internationalization across different industries.

Strategic insights for the future

A hands-on view of the trends that will shape the next decade, including AI, smart cities, electric mobility, autonomous logistics, the digital economy, and the convergence between technology and business.

High-level networking and global connections

Engagement with entrepreneurs, executives, investors, and members of Entrepreneurs' Organization Asia, fostering meaningful connections and new opportunities for collaboration and business.

Cultural Immersion

EO Connections

2nd EDITION
NOV 1-6, 2026

Innovation, Technology, and Business Immersion in China for **EO Global**

An **exclusive and personalized experience** for **EO Global**, specifically tailored for EO and **designed exclusively for its members**, aimed at entrepreneurs seeking inspiration, strategic networking, and concrete business opportunities in the Chinese ecosystem.

The program offers:

- Access to **leading companies** such as Alibaba, Xiaomi, Lenovo, and more.
- Visits to **startups, unicorns, and investment funds**.
- Tours of **cutting-edge factories, innovation hubs, and robotics in action**.
- Exploration of **key hubs**: Shanghai and Shenzhen.
- Meetings with **local leaders** and cultural experiences that strengthen integration.

Curated agenda, professional approach, and content aligned with the group's objectives: new trends, strategic alliances, and a deep understanding of the Chinese market.

China cannot be explained from the outside. It is lived from the inside.
